eResults is Symbio's in-house developed online platform that provides users with 24/7 access to their analytical results. Available through the Symbio Laboratories website, this service allows Symbio's clients to track sample receipt dates, check when results are due and download certificates of analysis as soon as they have been generated.

## Key Features

- Access to results anywhere, anytime you have a valid internet connection.
- Supports the export of filtered records into an excel .csv file for further use or manipulation.
- Filterable search options including submission date ranges, purchase order numbers and job/sample details make it easier to locate the exact result you are searching for.
- Serves as an access point for a number of Symbio's other innovative applications including Trending, Custom Pages and Symbio ProMap.
- Is an online archive of both recent and historical data and certificates - the perfect tool for audits!
- Ensured security and performance through a data center hosted cloud server with hot standby redundancy backup and a double firewall.

## The Symbio Difference

Symbio Laboratories is an Australian owned and operated provider of analytical laboratory services with over 20 years of experience.

### Quality Systems, Accreditations & Approvals

Symbio Laboratories' technical knowledge is backed by accreditations, approvals and comprehensive quality systems, including NATA accreditation, ISO/IEC/17025, DAWR/AQIS approved testing provider for export, APVMA licensed, and participation in internal and external proficiency programs.

### Expert Advice, Technical & Testing Services.

The Symbio Laboratories team includes experienced professionals with direct industry experience, supported by fully equipped NATA accredited laboratories across Australia, dedicated IT support, expert customer service team, and this online eResults tool.

Feel confident in partnering with a highly trusted and experienced national laboratory.
