CAPABILITY STATEMENT

Symbio
LABORATORIES

COMPANY OVERVIEW

Symbio Laboratories Pty Ltd is a leading food and water testing laboratory, helping clients comply with state and federal food safety measures.

With six domestic and two international testing facilities, we offer over 3,500 different testing solutions. Our services include testing for allergens, bacterium, contaminants, heavy metals, pesticides, nutrition, as well as comprehensive soil, agricultural, environmental and pharmaceutical product testing.

Our world-class laboratory technicians provide swift and accurate assessment of consumables, helping ease supply-chain management.

Protect public health and maintain regulatory compliance with Symbio Labs' extensive range of testing services, tailored to meet all your needs.

OUR PURPOSE

Symbio's food and water testing solutions bring peace-of-mind to anyone producing consumables for the public. We'll test for safety and nutritional value. Let us help you better serve your customers.

As Australia's premier consumables testing laboratory, Symbio Laboratories plays a critical role in ensuring the safety and quality of food products and pharmaceuticals.

Our comprehensive testing services cover allergens, bacteria, pesticides, harmful contaminants, and the accuracy of food nutrition panels. We also provide testing for water safety, soil purity and related environmental factors. Trust us to safeguard public health and protect your business's reputation with reliable and accurate testing solutions.

Capability Statement

Symbio Labs has facilities across Australia which conduct, on average, over 40,000 tests a week. Food safety testing is what we do.

OUR SERVICES

Symbio Laboratories offers comprehensive food, agricultural, environmental and pharmaceutical testing services.

Our team of expert lab technicians is standing by to test your product accurately and efficiently.

We test for microbiology, residue, chemicals and foreign matter. Right now, Symbio Labs offers over 3,500 different diagnostic tests and for your convenience, we have labs Australia-wide, conducting 40,000 tests weekly.

Our mission is to provide accurate results within the shortest turnaround time. Why suffer needless delays when Symbio can send you digital results quickly?

Our new laboratory in Melbourne is 8,600-square-metres, which makes it the largest privately-owned facility of its kind in the Southern Hemisphere.

FOOD SAFETY TESTING

Symbio Labs provides a wide range of food testing solutions to assist the dairy, agricultural, seafood, and meat industries in meeting their regulatory requirements and consumer expectations. Our comprehensive testing services help ensure that food products are safe, compliant and of the highest quality.

NUTRITION PANEL VERIFICATION

Our lab technicians are adept at validating and verifying the data appearing on the nutrition panels required on most food items.

WATER SAFETY TESTING

Symbio Labs is expert at testing water purity and safety. We test drinkable water, brown water, ground water, wastewater and flood waters. We test for chemicals, pesticides, heavy metals and other contaminants.

PHARMACEUTICAL TESTING

Although we've been testing pharmaceuticals for years, this division remains our fastest growing sector as our R&D teams work to extend our scope of service.

INDUSTRIES WE SERVE

When it comes to food safety, our clients trust us to help them produce and deliver products that are safe and contaminant-free. Our testing services are comprehensive, state-of-the-art and delivered swiftly.

- Local, State and Federal Government
- Restaurants, Bars and Pubs
- Grocery Stores
- Tourism
- Hotels
- Cruise Lines
- Casinos
- Farmers and Ranchers
- Pharmacies
- Mines
- Oil and Gas

Symbio Labs knows that passing food items through customs can be a time-consuming process. Let our swift and accurate testing services ease your supply-chain issues.

Symbio Labs' testing services are vital to hospitality. Our R&D team constantly seeks new ways to better serve clients' needs.

ACCREDITATION AND EXPERTISE

Health and safety are paramount at Symbio Labs. Our comprehensive range of accredited health and safety certificates reflects our commitment to maintaining the highest industry standards. Our NATA accreditation is a vital endorsement of the reliability, accuracy and technical competence of our testing services.

- ISO 9001: Quality Management
- ISO 14001: Environmental Management
- ISO 45001: Occupational Health & Safety Management System

OUR CLIENTS

Symbio Labs caters to clients from various Australian industries, highlighting the crucial role food and water safety play in public health.

We welcome leaders from business and government sectors to use our services, and be assured of our swiftness, efficiency, discretion and safety protocols. We take pride in our work and remain committed to delivering reliable and comprehensive testing solutions that safeguard public health and support our clients' success.
